

ANNUAL KWH USAGE DURING DEFROST

Flush mount control on evaporator closure panel

Tru-Dmnd by ArcticFox

Defrost when you need it, set automatically, not time based

- Initiates Defrost based on need, not time-based
- Avoids up to 93% of typical defrost cycles, saving you money
- Easy Install and set-up
- Electric Expansion Valves (EEV)
- Stable Temperature Swings
- Available on Remote Refrigeration, R404A or R448A Packages with Low Profile or Center-Mount Evaporator Coils
- Live Dashboard (ArcticFox Smart Access) and Remote Monitoring
